

## Integration

### Our integrated services are designed for full compatibility with your existing technology.

When new technology is released, NobelBiz customers are the first to have easy and quick access—because it's already compatible with everything we do.

We believe in simplicity, which is why our solutions are convenient, efficient, easy to use, and even easier to implement. Our scalable solutions can be implemented without any disruptions to your current system. Best of all, with our simple reporting and quality assurance, you can quickly and easily track and report your improved results.

From monitoring to storage to security to reporting, we help you to consolidate and outsource all of your call center needs. Our Application Protocol Interface (API) allows you to integrate our system with your existing interface so that you can combine the best of our technology with the best of yours. Choose from among our customizable, scaled package options to find the best fit for your needs.

- Our **BetterWRX Enterprise Edition** offers everything you need to ensure the success of your call center, including Universal Automated Contact Distribution (UACD), Interactive Voice Response (IVR), customized campaign management, database management, linked campaign organization, management of multiple phone numbers, automated retry attempt scheduling, list segmentation, filter management, outbound predictive dialing, and much more.
- Our **BetterWRX Small and Medium Business (SMB) Edition** is a hosted contact solution designed for small and medium call centers. Our SMB Edition offers automated call distribution, outbound predictive dialing, call blending, SMRT interactive voice response, and voice broadcasting.

From business-to-business outreach to collections agencies, we serve a variety of customers across the globe. Each of our customers is unique, which is why all of our solutions are scalable to your changing needs and fully compatible with your current systems.

Contact us today to learn how we can address the challenges your business or organization is facing.
